“Talk to a CEO” Series
Mr. Stephen T.H. Ng, Chairman & Chief Executive Officer of
i-CABLE Communications Ltd
“Live Olympics in the Office and Workplace”

It is our pleasure to present to you Mr. Stephen T.H. Ng, Chairman and Chief Executive Officer of i-CABLE Communications Ltd. at a luncheon scheduled for 24 June 2008.

The broadcasting and telecommunication industries are going through momentous changes. Technologies are evolving at neck-breaking speed, viewer and user habits are changing just as fast, and convergence is rearranging the face of the operating topography.

In such a challenging environment, continued viability of an operator hangs on its ability to see ahead, plan ahead, act ahead and do things differently. As the pioneer of Hong Kong's pay television, the company is breaking new ground again this year - as the official NEW MEDIA broadcaster of the Olympics. It is poised to rewrite the history of Olympic viewing and set a new perspective of viewing behaviour in Hong Kong.

At this luncheon, Mr. Ng will share with members these new and exciting developments, and its corporate strategy to capture and capitalize on opportunities offered by change.

Mr. Ng was appointed Chairman of i-CABLE in August 2001. He is also the Deputy Chairman and Managing Director of The Wharf (Holdings) Limited; the Deputy Chairman of Wheelock and Company Limited; director of Joyce Boutique Holdings Limited and became its Chairman in 2007; the Chairman of Modern Terminals Limited; and the Chairman and Chief Executive Officer of Wharf T & T Limited.
